Summary

BSc (Hons) Software Engineering Undergraduate | Front-End Developer | UI/UX Designer. Proficient in crafting visually engaging, user-friendly interfaces and bridging design aesthetics with technical functionality. Currently pursuing a Higher Diploma in Computing and Software Engineering to enhance my expertise in programming and software development. Aspiring to become a proficient full-stack developer while delivering innovative and user-focused solutions.

Experience

Pharmacy Regulatory & IT Assistant, Pharma Associates – Colombo-14 Aug 2022 – Dec 2024

- Assisted the National Medicines Regulatory Authority (NMRA) with drug licensing, approval, and document submission, ensuring compliance with regulations.
- Supported the Regulatory Department as an IT assistant, streamlining workflows through technical solutions.
- Contributed to the timely delivery of regulatory documentation, enhancing operational efficiency.
- Demonstrated adaptability by balancing pharmacological and IT responsibilities to achieve team objectives.

Skills

- **Programming Languages:** HTML, CSS, JavaScript, Python, Java, SQL
- **Frameworks and Tools:** ReactJS, Node.js, .NET MVC, Figma, Git
- **Soft Skills:** Problem Solving, Team Collaboration, Creativity, Adaptability

Education

BSc (Hons) Software Engineering, ICBT Campus (Awarded by Cardiff Metropolitan University) Expected Completion: Aug 2027

Certificates

- Certificate in Comprehensive UI/UX Design - FSD Academy
- Web Design for Beginners - University of Moratuwa
- Front-End Web Development - University of Moratuwa
- User Experience Design - Georgia Institute of Technology
- Fundamentals of Digital Marketing - Google Digital Garage
- Technical Support Fundamentals - Google

Projects

- **Currently working on Virtual Try on + E-commerce Website - Research Project**
Scope: Developing a responsive Clothing E-commerce website using MERN stack, featuring account creation, product browsing, cart management, and secure checkout for users, and an admin panel for product and order management.
- **Restaurant Website (The Gallery Café) - ASP.NET MVC**
Scope: Developed a dynamic restaurant website with online table reservations, food ordering, and user registration. The admin panel includes tools for managing menus, reservations, and customer interactions, using MSSQL and Entity Framework for data storage.
- **Coffee Shop Mobile App UI Design with Prototype** - Designed using Figma
Scope: Created a mobile app UI design for a coffee shop with features like user login, home screen, product categories, item details, cart, and delivery options, focused on a seamless user experience and intuitive navigation.
